

## How to share a pre start check

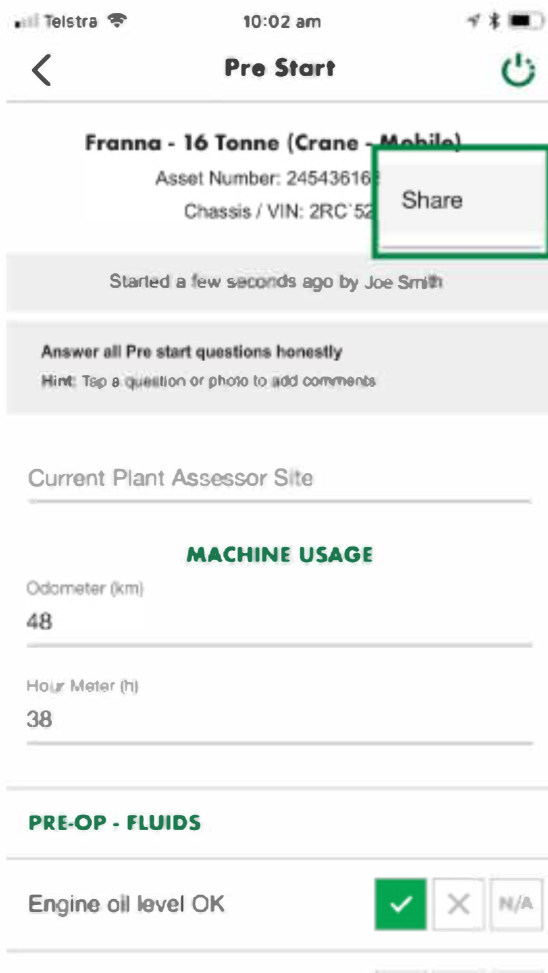

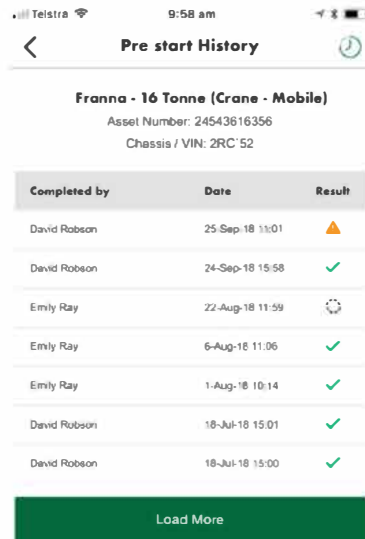

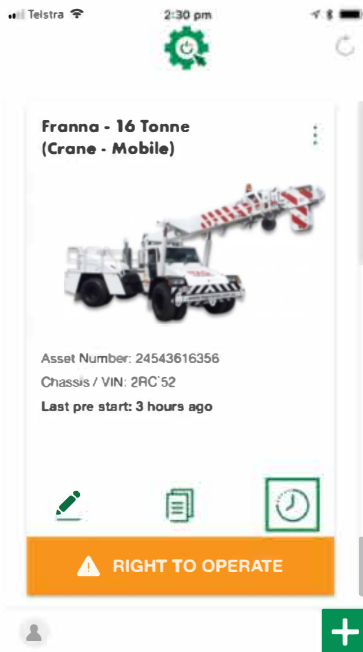

### Sharing a pre start directly after completing a pre start check -

Once all the pre start questions have been answered a status screen will appear (**ok to use**, **use with caution**, **do not use**) with an option to share the result.

Click **SHARE PRE START** then choose your preferred method of sharing - eg. email, messenger, text message.

## Share a pre start anytime -

Find your machine, then click on the green pre start history icon. Select the pre start, then click on the 3 vertical dots at the top right of the screen. Click **SHARE**, then choose your preferred method of sharing.
